

# Microsoft Frontier

More time for  
what matters

Intelligence in everyday work helps people turn  
ambition into action.

# Someone is waiting for an answer

"Please make  
this easier."

# Too much time between people and answers

Searching. Copying.  
Chasing updates.

Frontier Transformation

# People lead. AI helps the work move.

Useful intelligence.  
Trust at every step.

A woman with curly hair is sitting at a desk, looking down at a laptop. She is wearing a teal top. On the desk, there is a green mug and an open notebook. In the background, two other people are standing and talking near a large window.

Microsoft 365 Copilot

# Help me get ready

Summarize the meeting.  
Draft the follow-up.

People check the result

Copilot Studio + Power Platform

# Help me finish the routine work

Example: arrange a meeting,  
then send the reminder

Approved steps. Clear limits.

Dynamics 365

# Help us keep our promises

Give the next person  
the whole story.

Microsoft IQ

# Our knowledge, put to work

**Work IQ**

Work context

**Fabric IQ**

Business meaning

**Foundry IQ**

Shared knowledge

**Web IQ**

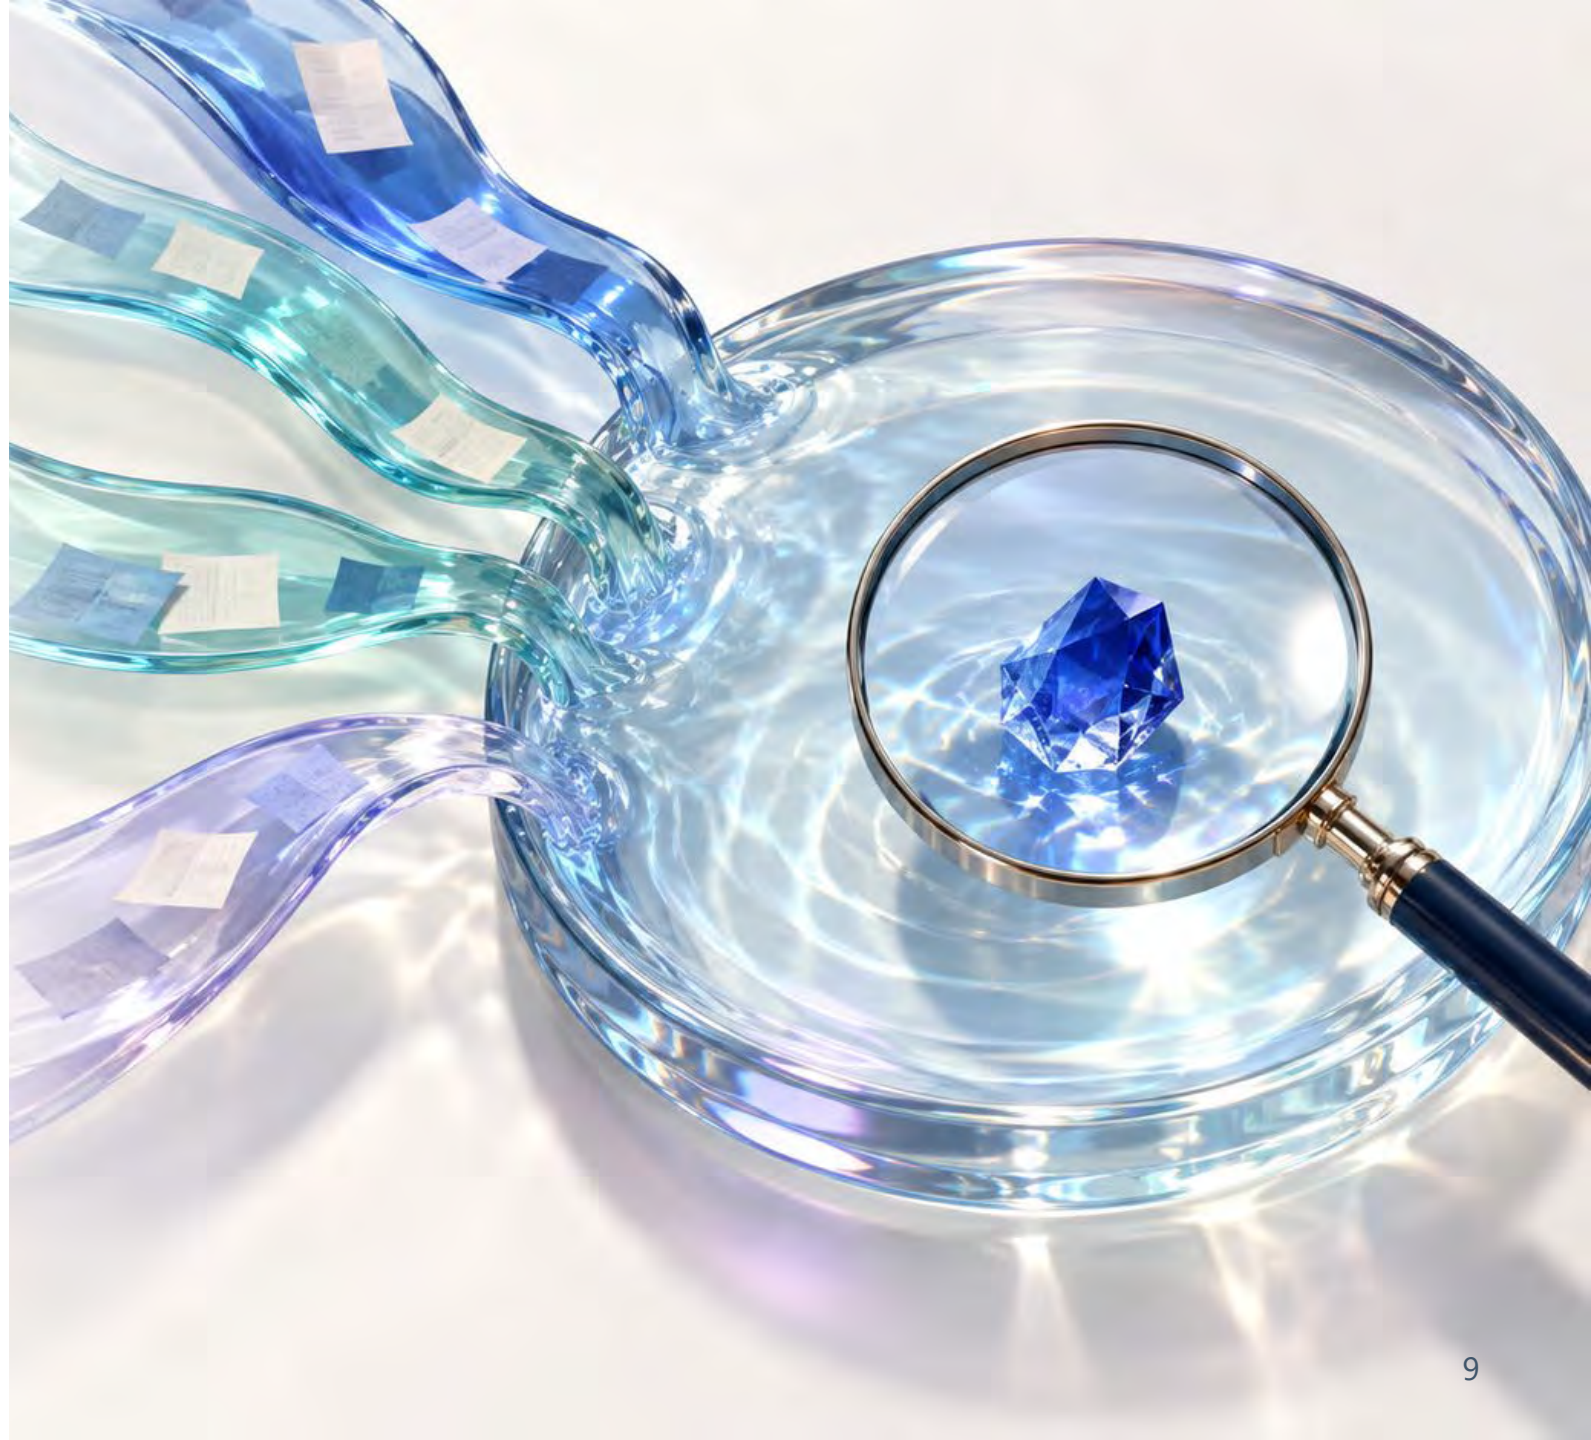

Outside information

Microsoft Fabric + Power BI

# Help me see what needs attention

Bring information together.  
See the pattern.

The tools for your builders

# Help us build what makes us different

GitHub Copilot helps write code.  
Foundry builds and tests AI.  
Azure runs the services.

Microsoft Agent 365

# Know what your agents are doing

Give each an owner.  
See actions. Set limits.

Microsoft Security

# Trust is a responsibility

**Entra**

Who gets access

**Purview**

How data is protected

**Defender + Sentinel**

Threat detection

**Intune**

Device management

**Security Copilot**

Help investigating

Microsoft 365 E7

# A connected starting point

Microsoft 365 E5  
Microsoft 365 Copilot  
Agent 365  
Microsoft Entra Suite

**The Frontier Suite**

# A simple request, handled with care

"I need to change my appointment."

**Ask**

Copilot

**Prepare**

**Approve**

A person

**Confirm**

Business apps

Permissions and oversight throughout

# What success means around the leadership table

|             |                            |
|-------------|----------------------------|
| <b>CEO</b>  | More valuable growth       |
| <b>CFO</b>  | Return after all costs     |
| <b>COO</b>  | Reliable execution         |
| <b>CIO</b>  | Useful, connected systems  |
| <b>CISO</b> | Risk under control         |
| <b>CHRO</b> | People ready and supported |
| <b>CMO</b>  | Trust people can feel      |

Measure what improves. Watch what gets worse.

Microsoft Frontier Company

# People make the change work

Your people + Microsoft  
+ partners

Your first decision

# Which everyday task should feel easier?

**01**

One workflow

**02**

One owner

**03**

A clear measure

**04**

A safe way to learn

Choose the tools after the goal.

# More room for people

Time to listen.  
Space to do the work  
only people can do.

Meghan Fasano

# The work, in plain language

|                                                                                     | Offering                                | What it helps with            | Everyday example                |
|-------------------------------------------------------------------------------------|-----------------------------------------|-------------------------------|---------------------------------|
|    | <b>Microsoft 365 Copilot</b>            | Assistance in daily work      | Prepare a first draft           |
|    | <b>Copilot Studio</b>                   | Create and publish agents     | Handle a routine request        |
|    | <b>Power Apps + Automate + Pages</b>    | Apps, workflows and websites  | Connect an approval process     |
|    | <b>Dynamics 365</b>                     | Sales, service and operations | Follow through on a promise     |
|    | <b>Microsoft IQ</b>                     | Context for AI                | Use the right company knowledge |
|  | <b>Fabric + Power BI</b>                | Data and analytics            | Find the cause of a delay       |
|  | <b>Foundry + GitHub Copilot + Azure</b> | Build and operate solutions   | Create a tailored AI experience |

Choose capabilities for your needs. Licensing and availability vary.

# The trust and support around the work

|                                                                                     | Offering                            | What it helps with                    | Everyday example                          |
|-------------------------------------------------------------------------------------|-------------------------------------|---------------------------------------|-------------------------------------------|
|    | <b>Agent 365</b>                    | Agent oversight                       | Know the owner and activity               |
|    | <b>Microsoft Entra</b>              | Identity and access                   | Give the right person access              |
|    | <b>Microsoft Purview</b>            | Data security and governance          | Protect sensitive information             |
|    | <b>Defender + Sentinel + Intune</b> | Threats and devices                   | Spot issues and manage devices            |
|   | <b>Security Copilot</b>             | AI help for security teams            | Investigate an alert                      |
|  | <b>Microsoft 365 E7</b>             | The Frontier Suite                    | Bring productivity and oversight together |
|  | <b>Frontier Company + partners</b>  | Engineering and organizational change | Build, adopt and improve the solution     |
